

JUSTICE FOR GARY KING

INJUNCTIONS ARE NOT SOLUTIONS

Oakland City Attorney John Russo has filed a civil injunction against 15 individuals he calls the “North Side Oakland Gang”. This injunction is now being enforced by the Oakland police, and community members are organizing to prevent the expansion of injunctions throughout Oakland. The current injunction will not make Oakland safer- it will only promote racial profiling, police harrassment and gentrification in North Oakland.

Injunctions will:

- Prevent those named from being together in a 100 square block zone.**
- Prevent those named from being out at certain times (Curfew).**
- Fine or imprison those who break rules and criminalize otherwise non-criminal behavior (being outside with friends/family).**
- Allow police and the City Attorney to add individuals they deem to be “gang members” to the list based upon racial and cultural stereotypes.**
- Push Black and Brown communities out of Oakland.**

Violence in Oakland won't be prevented with increased policing and prisons!

Our communities need self-determination and justice for all those abused/murdered by police!
