

We are a coalition of community members, organizers and lawyers fighting against “gang” injunctions in Oakland. We are also working to build real solutions to violence and to do so, we need you to build with us.

**Gang Injunctions Don't Make Communities Safer!
We Want to Make Communities Safer By:**

- Creating community networks that monitor the police and create community responses to harm and violence.
- Creating youth programming that is not connected to policing.
- Eliminating job discrimination against formerly incarcerated people, and establishing job training and living wages for all people in Oakland.
- Putting a moratorium on foreclosures and private redevelopment that are displacing low-income Oakland families.
- Generating real economic development for communities of color who have been excluded for years.
- Increasing funding for teachers, counselors and relevant education in Oakland schools.
